

# ON THE ROAD WITH ICOFORM

**ICOFORM**  
INNOVATIVE PLASTICS SOLUTIONS

# ABOUT **ICOFORM**

ICOFORM is a leading European manufacturer with a long tradition of offering high quality polyethylene products for the automotive, household, industrial and agricultural sectors.

The company operates a manufacturing plant in Romania and a customer service center in Poland. As part of the Icotec.Group, we offer a wide range of innovative plastic solutions with decades of know-how.

Together with our group companies, Isosport, Isokon and Tomplast, we have the necessary flexibility to act

as a reliable development partner and strategic supplier worldwide. With over 30 years of experience in the automotive sector, ICOFORM is the European market leader of spray suppression flaps for heavy commercial vehicles, sold under the Clear Pass® brand.

Our demonstrated technological know-how has enabled our company to provide high quality, production flexibility and a high degree of product customization, confirmed by a long-term co-operation with global brand truck manufacturers and major European trailer builders.

# PRODUCT **OVERVIEW**

## **CLEAR PASS** SPRAY SUPPRESSION FLAP

## **CLEAR SPRAY** SPRAY SUPPRESSION FLAP

## **SIDE VALANCE**

# THE WORLD'S MOST PREFERRED SPRAY SUPPRESSION SYSTEM

Clear Pass is the recognised leader amongst the spray suppression systems. Its unique one piece manufacture guarantees its longevity, performance and strength. You will find Clear Pass has more advantages than any other spray suppression system.

## Legislation

Clear Pass complies with every aspect of the law on spray suppression.

## Design flexibility

Bespoke styling for all trucks and trailers, whatever the shape or design without tooling cost.

## No size limitation

Clear Pass is available in any required size, even for small volume requirements.

## Ease of installation

Clear Pass is easy to install, easy to handle and easy to shape and cut to size without specific tools.

COMPLIES  
WITH EU AND GB  
REGULATIONS.

## Weight

Clear Pass is not unnecessarily heavy and belongs to the lightest spray suppression systems available.

## Durability

Clear Pass resists to the toughest weather conditions without any risk of breakages.

## Logo printing

Clear Pass offers durable (colour) screen printing.

## Environment

Clear Pass is made from 100% PE and hence 100% recyclable.

## Quality

Clear Pass is manufactured in accordance with ISO 9001 (quality), ISO 14001 (environment) and IATF 16949:2016, your guarantee for quality.

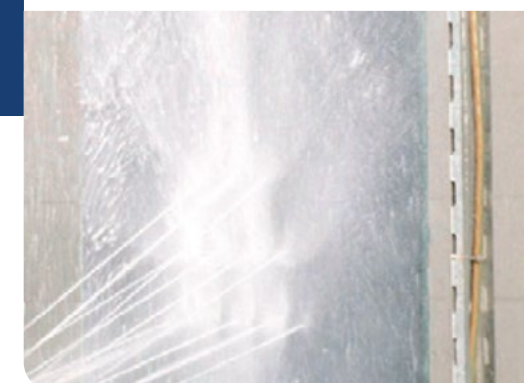

Design flexibility

Clear Pass minimizes the dangers of spray hazards, containing much of the water thrown up by tyres and returning it to the road surface, ensuring:

- Improved visibility to following vehicles
- Improved rear vision to drivers
- Less fouling of vehicles
- Making a contribution to road safety
